Dear Parents/Carers,

Re: Health Questionnaires

The Young Greenwich School Nursing Service promotes children's well-being and offers an easy-to-access health questionnaire for children entering school (at reception year or from outside the borough). Filling out the health form is important for you as a parent/carer because it helps us identify any health needs and enables care planning within the school environment.

We are now inviting parents/carers to complete the health form by copying and pasting the following link into your internet browser,

<https://app.schoolscreener.com/Portal/#/Oxleas/g/Oxh2425>

Or please scan the following QR code to access the questionnaire using your phone camera or ipad camera:

Once completed, you can access your responses, receive health tips, and connect with a nurse if needed. Your child's information will remain confidential.

If you have questions or need assistance, contact the Young Greenwich School Nursing Service on 02083176319 or via e-mail oxl-tr.younggreenwichhealth@nhs.net

Yours sincerely,

Zipora Govere,
Operational lead for the Young Greenwich School Nursing Service
